

CITY COUNCIL.

The Colbert Trust Bought by the City Fathers for Cemetery Purposes.

A New Street Car Company Applies for a Franchise, Which is Granted.

The Broadwater has a Close Call—Report of the Working Women's Home—A Painful Accident.

The city fathers met last night in special session in response to a call by the mayor. Present: Mayor Fuller and Aldermen Adkins, Donnelly, Loeb, Klein, Spencer, Brown, Featherly, Richards, Dunn and Thomsen.

Alderman Loeb moved that the telephone poles on Lawrence street be ordered removed from where they stand within the sidewalk limit, to a distance of ten feet from the lot line. Carried.

Loeb moved that 2,000 cards with the rules, instructions and ordinances governing the city be printed for the use of the new system of fire alarm bells. Carried.

A motion was made by the city fathers to have the telephone poles removed from where they stand within the sidewalk limit, to a distance of ten feet from the lot line. Carried.

A motion was made by the city fathers to have the telephone poles removed from where they stand within the sidewalk limit, to a distance of ten feet from the lot line. Carried.

A motion was made by the city fathers to have the telephone poles removed from where they stand within the sidewalk limit, to a distance of ten feet from the lot line. Carried.

It is only miraculous that he was not killed. He was running along the top of a car, when a sudden jolt threw him between the cars, and before he could escape the wheels of a loaded freight car passed over his left arm close to the shoulder, almost severing it from the body. Before the accident was discovered, it is said, three other cars passed over the body, but he was brought to the city and conveyed to St. Peter's hospital. Drs. Treacy and Barbour, the attending physicians, decided amputation was necessary and this was accordingly done. Spile was resting very comfortably last night and no serious results are anticipated. He will be removed to the Missions hospital in the morning, and will be in the employ of the company only since the 4th inst. His father resides at Toronto, Canada.

Hanan & Sons' men's \$6 shoes for \$4 at Gamble's.

PERSONAL.

John F. Forbes, the Butte attorney, is at the Grand Central.

Storiff Dan Heydon, of Missoula, is at the Grand Central.

E. B. Northrup and wife, of St. Paul, are at the Grand Central.

Herman Schild and Frank Monroe, of Fredericksburg, Pa., are at the Merchants.

Miner, of Lewistown, are guests of the Merchants.

H. W. Lowry, the big cattle man, came down from Great Falls yesterday and is at the Cosmopolitan.

W. C. Platt, ex-journalist and now bloated mining operator and capitalist, is in the city.

S. A. Wiles and daughter, F. W. Chase and wife, and W. A. Dick, of Meadville, Pa., are at the Cosmopolitan.

Wm. Flannigan and M. Carter, prominent residents of Chestnut valley, are in the city.

C. C. A. Broadwater returned from New York yesterday just in time to learn of the close call he had with his big hotel.

Col. Sam Stryker, known to fame as the commander of the Forty-fourth New York, or Ellsworth's veterans, is registered at the Cosmopolitan.

Mr. and Mrs. John Keymer Kane and Miss Kane, after a very enjoyable stay in Montana, leave this morning for their home in England.

Miss Host Trotter, of the well known company owning some of the best cars over here, has been here for more than three months.

The committee appointed made a report in regard to the franchise of the street railway applied for by the city fathers and reported favorably for the granting of the same.

On motion the rules were suspended and the ordinance granting the franchise was placed on its final passage and passed unanimously.

A motion by Klein to grade Grand street to Warren by the street commissioner, the cost of the work not to exceed \$50,000. Carried.

A motion by Klein to grade Grand street to Warren by the street commissioner, the cost of the work not to exceed \$50,000. Carried.

A motion by Klein to grade Grand street to Warren by the street commissioner, the cost of the work not to exceed \$50,000. Carried.

A motion by Klein to grade Grand street to Warren by the street commissioner, the cost of the work not to exceed \$50,000. Carried.

AMUSEMENT NOTES.

The Circus—Baseball Game. Killen Combination and Sunday's Excursion. It is only a few days until the great circus of Seils Bros. & Barrett will be in Helena. Next Tuesday is the date and the festive small boy is diligently engaged in earning money enough to get in. The circus is a popular entertainment, but it is doubtful whether it attracts more attention than the menagerie and the latter feature of the coming show is said to be one of great magnitude and it is safe to predict that the residents of Helena and surrounding country will be there in full force for their cousins and their aunts to see the big show.

The game announced to come off at Seymour next Sunday is not to be between Marysville and the Helena club as was announced yesterday. The Marysville club will play a picked team from the Helena and Butte clubs, which is bound to make it more interesting than though the Helena team should play the Marysvilles.

The many admirers of Billy Hawkins are anxious to see him in action. He will take part in the Killen combination, which will be held next Monday evening. Billy gave a hit and many are anxious to see him do it again Monday night, yet he has no money to do so.

Mr. and Mrs. John Keymer Kane and Miss Kane, after a very enjoyable stay in Montana, leave this morning for their home in England.

Miss Host Trotter, of the well known company owning some of the best cars over here, has been here for more than three months.

WOOL INDUSTRY.

Important Reductions Made in the Matter of Rates From Duluth to Seaboard Points.

The Bulls Have Downed the Bears in Montana—The Wool Output This Year.

About the Prevalent Horse Disease, Which is Said to be Epizootic or Influential.

Wool men will be interested to know that the lake and rail companies have made a decided reduction in the matter of rates from Duluth to the seaboard. The reduction amounts to 10 cents per 100 pounds from Duluth to New York. A. D. Edgar, general agent of the Northern Pacific, is in receipt of the following telegram covering this matter:

"Effective at once, The Port Huron, Mich., and Duluth, Minn., rates for wool from Duluth to New York, 35 cents; from Duluth to Philadelphia, 31 cents. On wool in sacks, less than car load lots, from Duluth to New York, 35 cents; from Duluth to Philadelphia, 31 cents. In wool in bales, compressed, minimum car load lots, from Duluth to New York, 40 cents; from Duluth to Philadelphia, 35 cents. The wool rates on marine insurance."

The Montana wool market has excited unusual interest this year, and the number of buyers in the field has been much greater than preceding years, but at the same time the wool clip has increased to such an extent as to cause buyers to turn their backs this way, for the reason that the Montana product is far superior to that from other states and territories. It is pleasing to note in the fluctuation of prices that Montana refused to be misled by the "bears" this year, as they were last year, and to one of which a prize offering was awarded. In my humble opinion neither answer was correct, and I think I can demonstrate it. The puzzle on its face requires a person take six odd figures and by adding them together make an odd number, viz: 21. A moment's reflection is sufficient to satisfy one that the operation cannot be performed. There must of necessity be a trick in the puzzle, and Mr. Bailey secured a solution by placing a figure in the tens' column, thus making a number which he used in counting instead of a figure, consequently he did not add the figure, but merely counted, and secured the result by counting four figures and a number which was not a figure.

M. A. Zimman, ex-farmer and now introducer of business, counting implies no other operation than adding, and the word "produce" or "make" were used where the word "count" should have been used. The puzzle might be solved in hundreds of ways. In no sense, therefore, can the operation of division be allowed in securing the answer.

"Take any six figures and make them count twenty-one." The directions say, "Take any six figures," they do not say "any six figures," and the word "count" is used where the word "produce" or "make" should have been used. The puzzle might be solved in hundreds of ways. In no sense, therefore, can the operation of division be allowed in securing the answer.
